### **Terms and Definitions:**

1. Residents fully vaccinated: An individual is counted as fully vaccinated if they have received the number of doses required to complete the COVID-19 vaccine series. This is measured as the total number of 2<sup>nd</sup> doses of Moderna and Pfizer administered and reported plus the total number of Janssen/Johnson & Johnson doses administered and reported.
2. Residents partially vaccinated: An individual is counted as partially vaccinated if they have received only the 1<sup>st</sup> dose of a two-dose vaccine (currently Moderna and Pfizer).
3. Residents fully vaccinated and boosted: An individual is counted as fully vaccinated and boosted if they have received the number of doses required to complete the COVID-19 vaccine series. This is measured as the total number of 2<sup>nd</sup> doses of Moderna and Pfizer administered and reported plus the total number of Janssen/Johnson & Johnson doses administered and reported as well as having received a booster shot. Residents who are fully vaccinated and boosted are considered up-to date on their COVID vaccines.
4. MIIS: Immunization data from most providers in Massachusetts are reported into the Massachusetts Immunization Information System (MIIS) through direct messages from electronic health records or direct entry by users. Due to inputting and processing, it may take 24-48 hours or more for shipping or administration data to appear in MIIS. MIIS data are available for analysis one calendar day after they are reported to the MIIS. Data are current as of time of publication and may be subject to change in future publications as additional data are reported.
5. Information on race and ethnicity is collected and reported by laboratories, healthcare providers and local boards of health and may or may not reflect self-report by the individual case. If no information is provided by any reporter on a case's race or ethnicity, MDPH classifies it as missing. A classification of unknown indicates the reporter did not know the race and ethnicity of the individual, the individual refused to provide information or that the originating system does not capture the information. Other indicates multiple races or that the originating system does not capture the information.
