Webster Water Department News Release

November 14, 2024

The Town of Webster Water Department has recently finished an initial inventory of water service line material within the Town and is making the inventory publicly accessible as mandated by EPA and MassDEP. You may have received a letter informing you of our findings. This is part of the routine process and is required by EPA and MassDEP guidelines. Webster Water system is routinely tested and remains in full compliance with federal and state water quality regulations. A paper copy of the service line inventory will be available for review at the Water Department located at 38 Hill Street or you can access our interactive service line inventory map on our website at: <https://www.webster-ma.gov/1087/Lead-and-Copper>

Thank you for your cooperation as we update our records and continue providing safe, quality water for our community. More information will be available at a later date.

Please contact the Water Department if you have any questions or concerns at (508) 949-3861.
