Town of Webster Facility Upgrade

Project Overview

The Town of Webster is initiating a facility upgrade to enhance municipal operations and safeguard essential town documents. This project consists of two primary components:

1. Town Clerk's Office Upgrade/Remodel – Revamp the front office area to improve functionality and create a more welcoming space for staff and visitors.
2. Fire-Resistant Archive Room Remodel – Transform existing storage space into a secure, fire-rated vault for long-term preservation of town records.

Scope of Work

Scope of Work – Town Clerk's Office Upgrade/Remodel:

- Demolition: Remove current wall structures and adjacent wall to widen access.
- Framing & Structural Enhancements: Construct new wall openings and install steel lintel.
- Ceiling Improvements: Replace existing ceiling panels with suspended Class A fire-rated tiles.
- Custom Millwork & Fixtures: Install ADA-accessible counters, shelving units, and flip-up counter.
- Painting & Finishing Touches: Repair and paint all impacted wall surfaces.

Scope of Work – Fire-Resistant Archive Room Construction:

- Framing & Fireproofing: Strap walls, apply two layers of Type X fire-rated drywall.
- Ceiling Improvements: Install Fire Guard-rated ceiling tiles.
- Doors & Trim Work: Install new fire-rated door, salvage trim, and add baseboards.

Additional Considerations

- Debris Disposal: A 30-yard dumpster must be provided and maintained.
- Permitting: Contractor is responsible for securing all required permits.
- Electrical & Data Work: All electrical and low-voltage data modifications will be handled by the owner.

Pre-Bid Site Walkthrough

Contact grobert@webster-ma.gov to schedule or call **508.949.3800 x1035**

Location: Town Clerk's Proposed Office, Webster Town Hall (Current Town Admin Office)

Purpose: Contractors will review the work area and receive a detailed explanation of project requirements.

Contractor Requirements

- Insurance: Workman's Compensation, General Liability
- Bonding: Payment Bonds (50% Payment Bond if contract is greater than \$25,000)
- DCAMM Certification: Required for public vertical construction projects estimated at \$150,000 or more under M.G.L. Chapter 149 or 149A. Contractors must provide a Certificate of Eligibility and Update Statement if applicable.
